

# Somayeh Noori Hekmat

 **9<sup>th</sup> August 1980**, Tehran, Iran

## Contact

### Address:

Kerman University of Medical Sciences, Medical University Campus, Haft-Bagh Highway, Kerman, Iran

### Phone:

+989126104923

### Email:

[snhekmat@gmail.com](mailto:snhekmat@gmail.com)

### LinkedIn:

<https://www.linkedin.com/in/somaye-noori-hekmat>

## Languages

Persian- Native

English- Upper intermediate

## Hobbies

- Writing
- Design
- Baking
- Swimming

## Summary

Professor of health service management specializing in strategic foresight in health. Experienced with all stages of the development cycle for futures study, health resources need assessment, resources estimation, and policy formulation. Member of AFSN and Iran futures literature team. Well-versed in numerous data management programs including SPSS, Minitab, Atlas-Ti, TreeAge, Stata, Arc GIS, MaxQDA10, Qlik Sense, SQL, Python, DAX, PowerBI Report Server. Strong background in foresight projects. Additionally, I serve as a peer reviewer for several prestigious journals in the field of health systems, including BMC Health Services Research, Medical Journal of The Islamic Republic of Iran, and International Journal of Health Policy and Management.

## Skill Highlights

- Futures Study
- Health master plan development
- Research
- Service-focused
- Academic education
- Supervising student's thesis

## Experience

### Kerman University of Medical Sciences, Kerman, Iran

- 2024- present: Dean of the School of Management and Medical Informatics at Kerman University of Medical Sciences.
- 2012-present: Faculty Member, Health Services Management Department, Management and Medical Information School, Kerman University of Medical Sciences, Kerman, Iran
- 2015-present: Member of institute of futures study in health
- 2017-present: Faculty Member, Futures study Department, Public Health School, Kerman University of Medical, Kerman, Iran
- 2014- 2020: Director, Think Tank, Kerman University of Medical Sciences
- 2012- 2014 and 2018-present: Director, Education Development Center, Kerman University of Medical Sciences
- 2010- 2012: Director, University-Industry Relation Office, Kerman University of Medical Sciences

## Education

Ph.D: **Health Care Management** - 2012

**Tehran University of Medical Science**, Iran

## Certifications

Futures study (certificate): **Delphi, Road map, Scenario planning.**  
Data management and analysis: **SPSS, Minitab, Atlas-Ti, TreeAge, Stata, Arc GIS, MaxQDA10, Qlik Sense, SQL, Python, DAX, PowerBI Report Server**

## Teaching Courses:

- Futures Studies Tools
- Strategic Foresight
- Strategic Planning
- Management Principles
- Performance Measurement
- Health system
- Research Methods

## Recent Competitive Research Grants

- UNICEF

Topic: Landscape Analysis on Assistive Technology for Children and Adolescents with Disabilities in Iran

Investigator (Dec 2023- Aug 2024)

- UNESCO

Topic: Translating “Transforming the Future: Anticipation in the 21st Century” to Persian

Co-Investigator (2021)

- The Academy of Medical Sciences of Iran

Topic: Analysis of the Future Framework of Iran's Medical Education System

Co-Investigator (2021)

- Ministry of Health and Medical Education of Iran

Topic: Iran Medical Education Master Plan; Anticipation of medical students' capacity in 2030

Investigator (2019)

- Ministry of Health and Medical Education of Iran

Topic: Iran Curative care master plan; Estimation of health resources, infrastructures and service model in Iran 2030

Investigator (2017)

- WHO (World Health Organization Representative Office in I.R.Iran)

Topic: UHC indicators monitoring in Iran

Co-Investigator (2015)

- Kerman University of Medical Sciences

Topic: Curative care master plan for Kerman Province

Investigator (2015)

- Kerman University of Medical Sciences

Topic: Health master plan for Kerman Province

Co-Investigator (2011)

- Ministry of Health and Medical Education of Iran

Iran Scientific Roadmap (2009)

Co-Investigator

#### **Books Published:**

- Translation of the book "Transforming the future to 21th century" to Persian
- Planetary cities (physical inactivity chapter). Springer. (Under Publication)

**The most recent and relevant work (Under review in Journal of Futures Studies) :**

## Experiencing the Future: A CLA Perspective on the Dubai Future Forum 2024

Reza Dehnavieh , Sohail Inayatullah, Somayeh Noori Hekmat ,Nur Anisah, Lavonne Leong

### **1. Introduction**

As the Dubai Future Forum enters its third edition, the UAE's vibrant commercial hub once again welcomes leading futurists, visionaries, and thought leaders from around the world. This year's gathering, hosted at the iconic Museum of the Future, The 'Museum of the Future' in Dubai is one of the most innovative buildings in the world(1), brings together over 2,500 experts, policymakers, and innovators representing nearly 100 countries.

The forum is organized by the Dubai Future Foundation (DFF), a government-backed entity established in 2016 to promote long-term thinking and advance Dubai's strategic goal (2). The event reflects the DFF's vision to transform Dubai into a "city of the future," a hub where futurists collaborate to study, invent, and realize future-focused innovations(3). One of the defining aspects of the forum is its ability to turn ambitious ideas into reality, bringing long-conceived visions to fruition :

*"Thanks for making this dream a reality. I've tried to put this together [the First gathering of foresight journal editors] many times over the last twenty years so thrilled we are almost there."* This sentiment underscores the event's role as a catalyst for transforming visionary concepts into actionable strategies.

The forum spans multiple days, beginning with a Networking Day, followed by the two-day core event, and concluding with a Learning Day. The core event is the largest global gathering dedicated to futurism and foresight, featuring 150 speakers across 70 dynamic sessions. More than just a conference, this forum provides a unique platform for deep intellectual exchange among futurists, fostering a truly global and multidisciplinary dialogue :

*"The annual DFF brings together global thought leaders, futurists, innovators, and researchers, all united by one goal: shaping a better future."*

Under the 2024 theme of "Empowering Generations," the agenda explores key topics such as leveraging AI and emerging technologies for societal benefit, as well as tackling critical challenges in sustainability and human well-being. Through these discussions, the Dubai Future Forum reaffirms the city's commitment to staying at the forefront of global futurist endeavors. Notably, the event is not static; it
